

K-Rise Systems Presentations at Quest Midwest Nov 7-8

(Both are available as web demonstrations as well)

94570 - Everything Under One Roof - A SharePoint Portal

Date Monday, November 7
4:30 pm - 5:20 pm

Location: Wabash

Description:

How many activities can you fit into one portal? Caltrol's goal is to have everything under one roof. They have branded it OneSource and are adding one site after another under the umbrella of their SharePoint environment (MOSS 2007), greatly adding efficiency to their user's lives. See samples of their Credit Card encryption portal, a Drop Ship 3-way matching piece, conversion of a 3rd party quote into a JDE Sales Order and more.

Objective 1: Walk through SharePoint sites with various functionalities under one login

Objective 2: Get the juices flowing on ways to use SharePoint

Objective 3: Demonstration of an Enterprise style SharePoint Application

Audience: Functional

94780 - Moving from paper to electronic requisitioning

Date Tuesday, November 8
10:40 am - 11:30 am

Location: Dearborn

Description:

Are you still living within an in/out box requisition world. Making plans to automate? Look at some of the choices made by our customers during their move to electronic purchasing. See why keeping requisitions outside JD Edwards until they are fully priced and approved before creating the JDE PO is a great idea. Take advantage of approval hierarchies in your other systems whether PeopleSoft, Access and others. Provide those who only use JDE for requisitioning at rare intervals with an alternative entry.

Objective 1: Highlight practical features in several external requisitioning portals

Objective 2: See a walk through of requisition creation that stays outside JDE through PO Creation

Objective 3: Demonstrate functionality of a three way matching application

Audience: Functional
